## District Consultations with Nonpublic Schools Regarding State-Funded Programs

School districts with nonpublic schools located within their boundaries are responsible for ensuring the on-time delivery of state-funded programs and services to nonpublic school students. In the coming weeks, districts will need to hold *timely and meaningful consultations* with their respective nonpublic schools to ensure that the Fiscal Year 2022 programs and services meet the needs of the nonpublic schools.

### Consultation Process & Timing

We encourage districts to send the [consultation form](#), with information pre-filled by the district, to the nonpublic schools *before the consultation*. The nonpublic school representative should attend the consultation with all applicable fields completed and prepared to make decisions on how the nonpublic school would like funds to be spent. Given the impact of COVID-19, consultations may be conducted virtually, electronic signatures are acceptable, and all signed forms may be collected via email.

We recommend that districts contemplating a change in their nonpublic service provider hold consultations by **mid-April**. If there are no anticipated changes in the provision of services, consultations should be scheduled in **May**.
